Shot Probability Analysis

Tianshu Feng, Jonathan Pipping, and Paul Sabin

University of Pennsylvania

July 29, 2025

Introduction

- Welcome to the presentation
- Today we'll discuss shot probability analysis
- Key objectives and findings

Background

- Context of the analysis
- Data sources and methodology
- Research questions

Methods

- Statistical approach
- Data processing steps
    - θ
- Model specifications

Results

- Key findings
- Statistical significance
- Practical implications

Conclusions

- Summary of main points
- Future work
- Questions and discussion

Thank You

Questions?
